Series Name: National Incident-Based Reporting System

Series Information: The National Incident Based Reporting System (NIBRS) is an incident-based reporting system for crimes known to the police. For each crime incident coming to the attention of law enforcement, a variety of data are collected about the incident. These data include the nature and types of specific offenses in the incident, characteristics of the victim(s) and offender(s), types and value of property stolen and recovered, and characteristics of persons arrested in connection with a crime incident.

Study Scope

Topic Classification(s): Social Institutions and Behavior, Crime and the Criminal Justice System

Abstract

The extract files version of NIBRS is an attempt to simplify working with NIBRS data. Data management issues with NIBRS are significant, especially when two or more segment levels are being merged. These issues require skills separate from data analysis.

NIBRS data as formatted by the FBI are stored in a single file. These data are organized by various segment levels (record types). There are six main segment levels: administrative, offense, property, victim, offender, and arrestee. Each segment level has a different length and layout. There are other segment levels which occur with less frequency than the six main levels. Significant computing resources are necessary to work with the data in its single-file format. In addition, the user must be sophisticated in working with data in complex file types. For these reasons and the desire to facilitate the use of NIBRS data, ICPSR created the extract files.

This data collection presents NIBRS data that were merged, restructured, and subsetted in four different ways. Four data files were created whose units of analysis are: crime incident, victim, offender, and arrestee. For each of the four files all of the related NIBRS segment levels

(record types) were merged with the cases. The incident, victim, and offender files were subsetted based on the incident date occurring in 2013. The arrestee file was subsetted based on the arrest date occurring in 2013, regardless of incident date.

The extract files contain records from the following record types: Batch Header (BH), Administrative (01), Offense (02), Property (03), Victim (04), Offender (05), and Arrestee Segments (06). In addition, the Incident-Level Extract File contains records appended to it from the Window Exceptionally Cleared Segment (W1), and the Arrestee-Level Extract File contains records appended to it from the Group B Arrest Report Segment (07) and the Window Arrestee Segment (W6).

For a given crime incident NIBRS records up to 10 offenses, 999 victims, 99 offenders, and 99 arrestees. In creating the extract files the number of records from each of the various segment levels that were merged with a case was limited to three. For example, in creating the victim-level file up to three records from each of the offense, property, offender, and arrestee segments were merged with the victim record. Where there were four or more related records, the fourth through N records were excluded. However, all the victim records with crime incidents in 2013 were included. The exclusion of records does not apply to records that correspond to the unit of analysis. If for a particular analysis all the records relating to a crime incident are needed, then the analyst can access them by using the datasets titled: NATIONAL INCIDENT-BASED REPORTING SYSTEM, 2013.

Approximately 99% of NIBRS incidents have three or fewer offense, victim, offender, and arrestee records. The records were merged with the case based on the ORI and INCIDENT NUMBER variables. The corresponding variables have a suffix of 1, 2, and 3. The variable labels also have a suffix of "- 1", "- 2" and "- 3". Batch Header and Administrative records appear only once for a given ORI and INCIDENT NUMBER. Consequently variables from those records (prefixed by BH and V1) do not have suffixes. Variables from the Window Exceptionally Cleared Segment were renamed to correspond to the Administrative Segment. Variables from the Window Arrestee Segment and the Group B Arrest Report Segment were renamed to correspond to the Arrestee Segment. See page for more information on window segments.

Each extract data file contains a set of variables labelled "N (##) RECORDS PER ORI-INCIDENT NUMBER" where "(##)" represents the NIBRS segment level. These variables were computed by ICPSR and they represent how many records of that type are in the full NIBRS data for a given ORI and INCIDENT NUMBER. For example, on the Incident-Level Extract File the variables RECSOFS=2, RECSPRP=5, RECSVIC=2, RECSOFR=4, and RECSARR=3 mean that there are two offense, five property, two victim, four offender, and three arrestee records respectively in the complete NIBRS data for a particular combination of ORI and INCIDENT NUMBER. Consequently, given that the extract file limits related records to three, there are two property and one offender records excluded from the Incident-Level Extract File for the particular ORI and INCIDENT NUMBER. In contrast, no loss of information occurs from the offense, victim, or arrestee records in this example.

The batch header and administrative records are always one record per incident, so no loss of information occurs from these records.

The variables labelled "N (##) RECORDS PER ORI-INCIDENT NUMBER" can be used to determine how much information is excluded from a particular case. When the value of these variables is greater than three, there is some loss of information.

In addition, a variable labelled "ALL OFFENSES" was created and appended to each record in the extract data files. This variable is the concatenation of all NIBRS offense codes recorded for the incident. It is another way for the analyst to estimate how much information is excluded from the dataset.

One of the source files for preparing the NIBRS extract files is the offense segment. The offense segment records information for each Group A offense that occurred during the crime incident. In NIBRS the offenses are not necessarily recorded in a particular order. In general it appears that most offenses are recorded approximately according to the UCR hierarchy rule. However, that is not always the case.

In order to avoid excluding a homicide or rape from the extract files because it was originally recorded as, for example, the fourth offense, the source offense data were sorted using a hierarchy. The source offense data were sorted in the order of: murder/nonnegligent manslaughter, rape, robbery, aggravated assault, burglary/breaking and entering, larceny offenses, and motor vehicle theft. After these offense were placed in order any remaining offenses were listed according to how they were originally recorded in NIBRS. The ALL OFFENSES variable described above lists ALL the offenses in their original order.

Geographic Coverage: United States

Geographic Unit: City

Universe: Law enforcement agencies in the United States participating in the National Incident-Based Reporting System

Kind of Data: Event/transaction data

Notes

NIBRS IN GENERAL

Uniform Crime Reporting (UCR) is a city, county, state, and Federal law enforcement program. This Program provides a nationwide view of crime based on the submission of crime information by law enforcement agencies throughout the country. The crime data are submitted either through a state UCR Program or directly to the national UCR Program, which is administered by the FBI. For over half a century, the data have been used in law enforcement administration, operation, and management, as well as to indicate the levels and nature of crime in the United States.

In the 1920s, the International Association of Chiefs of Police (IACP) envisioned the need for statistics on crime in our Nation. The Committee on Uniform Crime Records of the IACP developed this national data collection effort in 1930 and continues to work with the FBI in its efforts with UCR today. During that same year, the IACP was instrumental in gaining congressional approval, which authorized the FBI to serve as the national clearinghouse for statistical information on crime. The National Sheriffs' Association, in June 1966, established a Committee on Uniform Crime Reporting to work with the FBI and to encourage sheriffs throughout the country to participate fully in the Program.

Throughout its first 60 years of operation, the UCR Program remained virtually unchanged in terms of the data collected and disseminated. As time progressed, a broad utility evolved for UCR data, and law enforcement expanded its capabilities to supply crime information. In the late 1970s, the law enforcement community called for a thorough evaluative study of UCR with the objective of recommending an expanded and enhanced UCR Program to meet law enforcement needs into the 21st century.

The FBI fully concurred with the need for an updated Program to meet contemporary needs and provided its support, formulating a comprehensive redesign effort. Following a multi year study, a "Blueprint for the Future of the Uniform Crime Reporting Program" was developed. Using the "Blueprint" and in consultation with local and state law enforcement executives, new guidelines for Uniform Crime Reports were formulated. The National Incident-Based Reporting System (NIBRS) is being implemented to meet these guidelines.

NIBRS will offer law enforcement and the academic community more comprehensive data than ever before available for management, training, planning, research, etc. The implementation of NIBRS will be at a pace commensurate with the resources, abilities, and limitations of the contributing law enforcement agencies. Since Uniform Crime Reporting, in particular NIBRS, is voluntary the pace of NIBRS implementation will be affected by the willingness of law enforcement agencies to participate.

UPDATES IN OFFENSE AND RACE AND ETHNICITY INFORMATION

Starting with the 2012 data, some offense, location, bias motivation, race, and ethnicity codes have been added or modified to include recent Advisory Policy Board (APB) and Office of Management and Budget (OMB) policy mandates to the UCR Program related to Human Trafficking, Hate Crime, and Race and Ethnicity information.

REVISION OF SEX OFFENSES

At the recommendation of the CJIS APB and with the approval of the FBI Director, the FBI UCR Program initiated the collection of rape data under a revised definition and removed the term "forcible" from the offense name in 2013. The changes bring uniformity to the offense in both the Summary Reporting System (SRS) and the NIBRS by capturing data (1) without regard to gender, (2) including penetration of any bodily orifice by any object or body part, and (3) including offenses where physical force is not involved. As a result of this decision, the program renamed the NIBRS sex offenses - Forcible Rape to Rape, Forcible Sodomy to Sodomy, and Forcible Fondling to Fondling.

UPDATES TO RECORD LAYOUT

- Study 36121 -

In 2013 the FBI combined the three separate batch header record files into one file. Consequently ICPSR instituted new variable numbering for the batch header variables.

Methodology and Processing

Data Collection Methodology

Time Method: Cross-section

Data Collector: United States Department of Justice. Federal Bureau of Investigation

Frequency of Data Collection: Monthly

Sampling Procedure:
NIBRS is an incident-based reporting system which means data are collected on each single crime occurrence. NIBRS data are designed to be generated as a by-product of local, State, and Federal automated records management systems. Thus, an agency can build its own system to suit its individual needs, including all the information required for administrative and operational purposes. Only the data required by NIBRS are then reported to the national UCR Program.

NIBRS collects data on each single incident and arrest within 22 offense categories made up of 46 specific crimes called Group A offenses (p. 325). For each of the offenses coming to the attention of law enforcement, various facts about the crime are collected. In addition to the Group A offenses, there are 11 Group B offense categories (p. 325) for which only arrest data are reported.

Central to NIBRS is the concept of a crime incident. An incident is defined for NIBRS reporting purposes as one or more offenses committed by the same offender, or group of offenders acting in concert, at the same time and place. "Acting in concert" requires that the offenders actually commit or assist in the commission of the crime(s). The offenders must be aware of, and consent to, the commission of the crime(s); or even if nonconsenting, their actions assist in the commission of the offense(s). This is important because all of the offenders in an incident are considered to have committed all of the offenses in the incident. If one or more of the offenders did not act in concert, then there is more than one incident involved.

The phrase "same time and place" means that the time interval between the offenses and the distance between the locations where they occurred were insignificant. Normally, the offenses must have occurred during an unbroken period of time and at the same or adjoining location(s). However, incidents can also consist of offenses which by their nature involve continuing criminal activity by the same offender(s) at different times and places, as long as the activity is deemed to constitute a single criminal transaction. See p. 328 for examples of crime incidents.

Mode of Data Collection: Mail-in forms

Type of Research Instrument: Structured

Characteristics of Data Collection Situation: The data for the NATIONAL INCIDENT-BASED REPORTING SYSTEM are submitted voluntarily by city, county, and state law enforcement agencies. Some agencies receive forms directly from the FBI and return them directly to the FBI. Many others receive forms from state collecting programs and return these forms to those programs. The state programs, in turn, forward the reports to the FBI. Reports are sent out and collected on a monthly basis.

Control Operations: Once received, the FBI checks the agencies' reports for completeness and arithmetical accuracy. If an unusual fluctuation is detected in an agency's crime count, the FBI compares those counts with counts from previous reports or compares the frequencies to those of agencies similar to the agency in question. When necessary, law enforcement agencies are contacted to correct or explain the figures.

Notes

Group A Offenses

Each Group A Incident Report can contain up to six distinct records, each of which is referred to as a segment. Most segments can occur multiple times for a given crime incident. An incident report may consist of many possible combinations of circumstances ranging from a simple one administrative, offense, victim, and offender situation, to a complex set of multiple offenses, property losses, victims, offenders, and arrestees. In addition, each of the victims may not be involved in each of the offenses. In other words, one, some, or all of the victims may be connected to each applicable offense.

Group B Offenses

There are 11 Group B offense categories. Only arrestee data are reported for Group B Crimes.

Window Segment Levels

Window Segments reflect data in which the complete Group A Incident Report was not submitted to the FBI; rather, only a portion of the incident was submitted. A Window Segment record will be generated if the incident occurred prior to January 1 of the previous year or the incident occurred prior to when the agency began submitting NIBRS data to the FBI.

Data Files Description

File-by-File Description

File Name: Incident-Level Extract File

Contents of Files: The Incident-Level Extract file contains one record for every NIBRS crime incident with an incident date in 2013. Other NIBRS variables from the offense, property, victim, offender, and arrestee segments were merged with the incident records using the ORI and INCIDENT NUMBER variables. Variables from the Batch Header segment were merged using the ORI variable. Records from the Window Exceptional Clearance segment were appended to the file providing that the incident date was in 2013.

File Dimensions:
- No. of Cases: 4,998,574

- No. of Variables: 378

- Record Length: 1,235

- Records per Case: 1

- Overall No. of Records: 4,998,574

Type of File: ASCII

Data Format: Rectangular

Extent of Processing Checks:
NIBRS data in its original format uses many alphanumeric codes. Where possible these were recoded to numeric values.

Missing data codes were standardized by ICPSR.

Each data file was sorted by ORI and incident number in ascending order.

Missing Data:
Missing data codes are included with the extract files. The NIBRS data as received from the FBI contain blanks for missing data. In addition, blanks are sometimes used as a code with substantive meaning. In the extract files all blanks were recoded to a negative integer.

The following coding system for missing data is used:

-5 NA Window record - means that a value for the variable is not applicable given that the source record is a window record or Group B Arrest record.

-6 Not applicable - means that a blank (or some other actual code) was originally used to indicate or imply not applicable.

-7 Unknown/Missing/DNR - means that a blank (or some other actual code) was used to indicate unknown, missing, or did not report.

-8 NA Records LT 3 - means that missing data resulted from creating the extract files by including up to three records from other related NIBRS segments. This code allows users to know how much missing data is an artifact of creating the extract file.

-9 Undetermined - means that a blank in the original data cannot be interpreted in any of the previous ways.

File-by-File Description

File Name: Victim-Level Extract File

Contents of Files: The Victim-Level Extract File contains one record for every crime victim recorded in NIBRS for incidents occurring in 2013. Other NIBRS variables from the administrative, offense, property, offender, and arrestee segments were merged with the victim records using the ORI and INCIDENT NUMBER variables. Variables from the Batch Header segment were merged using the ORI variable.

-9 Undetermined - means that a blank in the original data cannot be interpreted in any of the previous ways.

File-by-File Description

File Name: Offender-Level Extract File

Contents of Files: The Offender-Level Extract File contains one record for every offender recorded in NIBRS for incidents occurring in 2013. Other NIBRS variables from the administrative, offense, property, victim, and arrestee segments were merged with the offender records using the ORI and INCIDENT NUMBER variables. Variables from the Batch Header segment were merged using the ORI variable.

File-by-File Description

File Name: Arrestee-Level Extract File

Contents of Files:
The Arrestee-Level Extract File contains one record for every arrestee recorded in NIBRS for arrest dates in 2013, regardless of incident date. Other NIBRS variables from the administrative, offense, property, victim, and offender segments were merged with the offender records using the ORI and INCIDENT NUMBER variables. Variables from the Batch Header segment were merged using the ORI variable. Records from the Group B Arrest Report and the Window Arrestee segments were appended to the file if the arrest date was in 2013.

In the original NIBRS data an arrestee will be included in the data multiple times if that person is connected to multiple incidents. For the Arrestee-Level Extract File each arrestee is included once for each arrest event. This simplifies ensuring that arrestees are not double counted.

National Incident-Based Reporting System, 2013: Extract Files

Incident-Level Extract File

Variable Description

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

Text:
Submission activity for each of the twelve months is reflected in each of the three-byte monthly flags as described. The first occurrence is January, the second is February, etc.

"Activity" does not guarantee the presence of incidents following the Batch Header but the probability of not having incidents would be extremely low. For example, assume agency "X" submitted a single incident for a month. Then the following month this incident was deleted from the file because it was unfounded. Since there had been activity, the flag will remain "1" to show this important fact.

1st position: 1 = Zero report was submitted.

PROPERTY SEGMENT DATA ELEMENTS

Overview

Up to 10 Property Description Codes can be present for each type of loss/etc. selected under data element 14 (Type Property Loss/ Etc.), with each on a separate Property Segment. If more than 10 types of property are involved, the codes and values for the nine most valuable are present; then, "77" (Other) has the remaining properties, along with their total value.

Property data entered into data elements 14 through 22 will include the TOTAL losses, recoveries, seizures, etc., for all the VICTIMS in this incident.

If Type Property Loss/Etc. is "1" (None) or "8" (Unknown), data elements 15-22 will be blank unless "1" (None) was entered and the offense is 35A, then data element 20 (Suspected Drug Type) will be present.

If the value of the property is unknown, the value will be one ("1") dollar.

The value will be blanks when the offense is Drug/Narcotic Violations (UCR Code 35A) and "6" (Seized) for data element 14 (Type Property Loss/Etc.) and "10" (Drugs/Narcotics) for data element 15 (Property Description) are present. Instead, data elements 20-22 would be present.

A property value for "10" (Drugs/Narcotics) would, however, be present if this property applies to other offenses (e.g., arson, burglary, etc.). data elements 20-22 would then be left blank.

If the value of the property is unknown, the value will be one ("1") dollar.

The value will be blanks when the offense is Drug/Narcotic Violations (UCR Code 35A) and "6" (Seized) for data element 14 (Type Property Loss/Etc.) and "10" (Drugs/Narcotics) for data element 15 (Property Description) are present. Instead, data elements 20-22 would be present.

A property value for "10" (Drugs/Narcotics) would, however, be present if this property applies to other offenses (e.g., arson, burglary, etc.). data elements 20-22 would then be left blank.

DRUG INVOLVEMENT DATA

Overview

Will be present only if: the offense is Drug/Narcotic Violation (UCR Code 35A), "6" (Seized) is present in data element 14 (Type Property Loss/Etc.), and "10" (Drugs/Narcotics) is present in data element 15 (Property Description). The number of pounds, grams, items, etc. of the drug/narcotic will be in data element 21 (Estimated Drug Quantity). If data element 22 (Type Measurement) was not available at the time of the submission, "XX" (Not Reported) will be present and "1" will be present in data element 21 (Estimated Quantity).

If "1" (None) is present instead of "6" (Seized) above, then data element 20 (Suspected Drug Type) should be present.

If more than three types of drugs are involved, the codes for the two most important along with "X" (Over 3 Drug Types) for the remaining drugs will be present. In this instance, data elements 21 (Estimated Drug Quantity) and 22 (Type Drug Measurement) will be blank. Note that no entry is made into data element 16 (Value of Property) when the offense is "Drug/Narcotic Violation" (UCR Code 35A).

Variable Type: character

Text:
Data Element 25C

This is the unique nine-character Originating Agency Identifier (ORI) Number that has been assigned to each agency in the National Crime Information Center. If a law enforcement officer is killed or assaulted in the line of duty in a jurisdiction other than his own, the law enforcement agency having jurisdiction should report the law enforcement officer killed or assaulted using Data Element 25C to identify the ORI of that law enforcement officer's agency. No entry is required if the officer is in his own jurisdiction.

This field applies to law enforcement officers assaulted or killed in the line of duty.

Data Element 34

Data elements 34 and 35 will be present only if one or more of the offenses entered into 24 [victim connected to UCR offense code(s)] is a "Crime Against Person," i.e., an assault offense (UCR codes 13A-13C), homicide offense (09A-09C), kidnapping / abduction (100), forcible sex offense (11A-11D), nonforcible sex offense (36A-36B); or if it is a robbery offense (120).

The relationship(s) of the victim to each offender (up to 10 offenders involved in the incident) are present. If there are more than 10 offenders, the 10 closest in relationship will be present.

If data element 34 (Offender Sequence Number) is "00" (Unknown), the relationship code will be blank.

Each Offender Sequence Number (data element 36) is present in data element 34 (Offender Numbers to be Related). The appropriate Relationship Code is present in data element 35 (Relationships of Victim to Offenders).

Group A and B Offenses

Text:

CRIMES AGAINST PERSONS/ PROPERTY/ SOCIETY

NIBRS offenses are divided into three categories: Crimes against persons, crimes against property, or crimes against society. Crimes against persons are those whose victims are always individuals, e.g., murder, rape, assault. The object of crimes against property is to obtain money, property, or some other benefit, e.g., robbery, bribery, burglary. Crimes against society represent society's prohibition against engaging in certain types of activity, e.g., gambling, prostitution, drug violations.

For counting purposes, one offense is counted for each victim of a crime against persons; one offense is counted for each distinct operation for crime against property (except motor vehicle theft, where one offense is counted for each stolen vehicle); and one offense is counted for each crime against society.

The following offense categories, known as GROUP A OFFENSES, were selected as those for which extensive crime data should be collected in NIBRS.

Examples of Crime Incidents

Text:

Below are three examples of different crime incidents. They are included to highlight the concept of an incident for NIBRS data.

Example 1: Two offenders robbed a bar. The bartender was forced at gunpoint to surrender money from the cash register. The robbers also took money and jewelry from three customers. One of the robbers, in searching for more customers to rob, found a female customer in the rest room and raped her there outside of the view of the other offender. When the rapist returned, both robbers left. There were two incidents, one involving robbery and the other involving rape, because the offenders weren't "acting in concert" in both offenses.

Example 2: Same situation as example 1, except that the rape occurred in the bar and the other offender told the rapist to stop and only rob the victim. There was only one incident with two offenses, i.e., robbery and rape. Although the other robber did not consent to the rape, by displaying a gun he prevented someone coming to the victim's assistance and thereby assisted in the commission of the crime.

Example 3: Over a period of 18 months, a computer programmer working for a bank manipulated the bank's computer and systematically embezzled $70,000. The continuing criminal activity constituted a single incident involving the crime of embezzlement.

NIBRS Group A Offense Definitions

Text:

1. Arson

    Definition - To unlawfully and intentionally damage, or attempt to damage, any real or personal property by fire or incendiary device.

Only fires determined through investigation to have been unlawfully and intentionally set are to be classified as arson. Attempts to burn should be included, but fires of suspicious or unknown origin should not be reported. One incident should be scored for each distinct arson operation originating within the reporting jurisdiction. If an arson is perpetrated in one locale and spreads to another, it would be reported by the jurisdiction in which the fire originated.

Incidents in which persons are killed as a direct result of arson involve both homicide and arson. Similarly, the number of persons injured during an arson should be reported as assaulted along with the arson. Arson-related deaths and injuries of police officers and firefighters, unless willful murders or assaults, are excluded from the program due to the hazardous nature of these professions.

2. Assault Offenses

    Definition - An unlawful attack by one person upon another.

A. Aggravated Assault

    Definition - An unlawful attack by one person upon another wherein the offender uses a weapon or displays it in a threatening manner, or the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness. This also includes assault with disease (as in cases when the offender is aware that he/she is infected with a deadly disease and deliberately attempts to inflict the disease by biting, spitting, etc.).

For purposes of aggravated assault reporting, a weapon is a commonly known weapon (a gun, knife, club, etc.) or any other item which, although not usually thought of as a weapon, becomes one when used in a manner that could cause the types of severe bodily injury described in the above definition. A severe laceration is one which should receive medical attention. Loss of consciousness must be the direct result of force inflicted on the victim by the offender.

Aggravated assault includes: assaults or attempts to kill or murder; poisoning; assault with a dangerous or deadly weapon; maiming, mayhem, assault with explosives; and assault with disease (as in cases when the offender is aware that he/she is infected with a deadly disease and deliberately attempts to inflict the disease by biting, spitting, etc.). All assaults by one person upon another with the intent to kill, maim, or inflict severe bodily injury with the use of any dangerous weapon are classified as aggravated assault. It is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is

used which could cause serious personal injury. By definition, there can be no attempted assaults.

On occasion, it is the practice to charge assailants in assault cases with assault and battery or simple assault even though a knife, gun, or other weapon was used in the incident. For UCR purposes, this type of assault is to be classified as aggravated.

B. Simple Assault

> Definition - An unlawful physical attack by one person upon another where neither the offender displays a weapon, nor the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness.

Included are offenses such as minor assault, hazing, assault and battery, and injury caused by culpable negligence. As with aggravated assault, there are no attempted simple assaults.

C. Intimidation

> Definition - To unlawfully place another person in reasonable fear of bodily harm through the use of threatening words and/or other conduct, but without displaying a weapon or subjecting the victim to actual physical attack.

Intimidation involves an offender making some type of threat to the victim without actually using or displaying a weapon. Such threats can be made in person, over the telephone, or in writing.

AN AID IN CLASSIFYING ASSAULTS

Careful consideration of the following factors should assist in classifying assaults:

> 1. The type of weapon employed or the use of an object as a weapon;
> 2. The seriousness of the injury;
> 3. The intent and capability of the assailant to cause serious injury.

Usually, the weapons used or the extent of the injury sustained will be the deciding factors in distinguishing aggravated from simple assault. In only a very limited number of instances should it be necessary to examine the intent and capability of the assailant.

Prosecutorial policy in a jurisdiction should not influence classification or reporting of law enforcement offense data. It is necessary that assaults in each jurisdiction be examined and classified according to the standard UCR definitions, regardless of whether they are termed felonies by local definitions.

3. Bribery

> Definition - The offering, giving, receiving, or soliciting of any thing of value (i.e., a bribe, gratuity, or kickback) to sway the judgment or action of a person in a position of trust or influence.

This offense excludes sports bribery, i.e., changing the outcome of a sporting contest or event, which is covered in the offenses dealing with gambling.

The phrase, "The offering, giving, receiving, or soliciting of any thing of value...," includes such things as gratuities, kickbacks, favors, or anything else used illegally to influence the outcome of something that is governed by law, fair play, contractual agreement, or any other guideline. The bribe would bring the outcome of an event outside any realm of reasonableness, the result of which could be predicted based on the offering or influence given to the person(s) in a position to render decisions.

4. Burglary/Breaking and Entering

> Definition - The unlawful entry into a building or other structure with the intent to commit a felony or a theft.

For UCR purposes, offenses locally known as burglary (any degree); unlawful entry with intent to commit a larceny or felony; breaking and entering with intent to commit a larceny; housebreaking; and safecracking should be classified as burglary. Burglary almost always includes some type of larceny offense. Because, however, burglary is defined in terms of theft, only the burglary is to be reported, not the accompanying larceny.

In the UCR standard definition of burglary, a structure is considered to include, but not be limited to, the following:

Apartment	Office
Barn	Other Building
Cabin	Outbuilding
Church	Public Building
Condominium	Railroad Car
Dwelling House	Room
Factory	School
Garage	Stable
Housetrailer or Houseboat	Vessel (Ship)
(used as permanent dwelling)	Warehouse
Mill	

Any housetrailer or other mobile unit that is permanently fixed as an office, residence, or storehouse should also be considered a structure.

Whenever a question arises as to whether a type of structure comes within the purview of the burglary definition, the law enforcement officer should look to the nature of the crime and be guided by the examples set forth. If a question remains, contact the FBI's UCR unit. The illegal entry of a tent, tent trailer, motorhome, housetrailer, or any other mobile unit that is being used for recreational purposes, followed by a theft, felony, or attempt to commit a felony or theft, should NOT be classified as burglary, but as larceny.

Burglaries of hotels, motels, lodging houses, or other places where lodging of transients is the main purpose or burglaries of temporary rental storage facilities, i.e., "mini-storage" and "self-storage" buildings, can pose reporting questions. If a number of units under a single manager are

burglarized and the offenses are most likely to be reported to the police by the manager rather than the individual tenants/renters, the burglary should be reported as a single incident. Examples are burglaries of a number of rental hotel rooms, rooms in "flop" houses, rooms in a youth hostel, units in a motel, and storage units in a commercial self-storage building. If the individual living areas in a building are rented or leased to the occupants for a period of time, which would preclude the tenancy from being classified as transient, then the burglaries would most likely be reported separately by the occupants. Such burglaries should be reported as separate incidents. Examples of this latter type of multiple burglary would be the burglaries of a number of apartments in an apartment house, of the offices of a number of commercial items in a business building, of the offices of separate professionals within one building, or of a number of rooms in a college dormitory.

NOTE: Remember that offenses should be classified according to NIBRS definitions and not according to state, local, or Federal codes. Some jurisdictions might, for example, categorize a shoplifting or a theft from an automobile as burglary. These offenses are not classified as burglaries in UCR and must be considered larcenies for reporting purposes. Thefts from automobiles (whether locked or not); shoplifting from commercial establishments; and thefts from telephone booths, coinboxes, or coin-operated machines do not involve unlawful entry of a structure; thus, no burglary occurred.

5. Counterfeiting/Forgery

> Definition - The altering, copying, or imitation of something, without authority or right, with the intent to deceive or defraud by passing the copy or thing altered or imitated as that which is original or genuine; or the selling, buying, or possession of an altered, copied, or imitated thing with the intent to deceive or defraud.

In most states, forgery and counterfeiting are treated as allied offenses. Included in this category are offenses such as altering and forging public and other records; making, altering, forging or counterfeiting bills, notes, drafts, tickets, checks, credit cards, etc.; forging wills, deeds, notes, bonds, seals, trademarks, etc.; counterfeiting coins, plates, banknotes, checks, etc.; possessing forged or counterfeited instruments; erasures; signing the name of another or fictitious person with intent to defraud; using forged labels; possession, manufacture, etc., of counterfeiting apparatus; and selling goods with altered, forged, or counterfeited trademarks. Although counterfeiting/forgery offenses can involve elements of fraud, they are treated separately due to their unique nature.

6. Destruction/Damage/Vandalism of Property

> Definition - To willfully or maliciously destroy, damage, deface, or otherwise injure real or personal property without the consent of the owner or the person having custody or control of it.

The offense includes a broad range of injury to property, i.e., from deliberate, extensive destruction of property at one extreme to mischievous, less extensive damage at the other extreme. It does not include destruction or damage to property caused by arson. As a general

rule, the offense is to be reported only if the reporting agency deems that substantial damage to property has occurred. However, any offense suspected to have been motivated by the offender's bias against the victim's race, religion, ethnicity, or sexual orientation is to be reported regardless of the amount or type of damage.

Incidental damage resulting from another offense (e.g., burglary, robbery) is to be reported in this offense category only if the reporting agency deems the amount of damage to be substantial. For example, insubstantial damage, such as a broken window, forced door, etc., should not be reported, but, substantial damage, such as where a truck is backed into a store front to gain admittance and major structural damage is caused, should be reported. For the crime of arson, however, incidental damage resulting from fighting the fire should be included as part of the loss caused by burning. The determination of whether the damage was substantial is left to the discretion of the reporting law enforcement agency and should not require burdensome damage assessments.

7. Drug/Narcotic Offenses

> Definition - The violation of laws prohibiting the production, distribution, and/or use of certain controlled substances and the equipment or devices utilized in their preparation and/or use.

A. Drug/Narcotic Violations

> Definition - The unlawful cultivation, manufacture, distribution, sale, purchase, use, possession, transportation, or importation of any controlled drug or narcotic substance.

B. Drug Equipment Violations

> Definition - The unlawful manufacture, sale, purchase, possession, or transportation of equipment or devices utilized in preparing and/or using drugs or narcotics.

This offense covers those cases involving drug paraphernalia, equipment, chemicals, illegal labs, etc. Various statutes and/or codes may vary in the description of equipment or paraphernalia involved with drugs/narcotics. If any difficulty arises in determining whether or not a particular item, tool, chemical, etc., is applicable to this offense, contact the national Uniform Crime Reporting Program for clarification.

8. Embezzlement

> Definition - The unlawful misappropriation by an offender to his/her own use or purpose of money, property, or some other thing of value entrusted to his/her care, custody, or control.

Generally, the victims of embezzlement offenses are businesses, financial institutions, etc.

9. Extortion/Blackmail

> Definition - To unlawfully obtain money, property, or any other thing of value, either tangible or intangible, through the use or threat of force, misuse of authority, threat of criminal

prosecution, threat of destruction of reputation or social standing, or through other coercive means.

Even though persons are involved or victimized in extortion/blackmail cases, this offense is considered a crime against property. Like robbery, which is also a crime against property, the object or target of extortion/blackmail is to obtain money or property; therefore, it is classified as such. Extortions include offenses where threats are made in nonconfrontational circumstances and the victim is not in fear of immediate harm. If during a demand for money, property, etc., there is a personal confrontation between the victim and offender and the threat of force or violence could be carried out immediately, the offense should be reported as Robbery.

10. Fraud Offenses

> Definition - The intentional perversion of the truth for the purpose of inducing another person or other entity in reliance upon it to part with some thing of value or to surrender a legal right.

By definition, fraud involves either the offender receiving a benefit or the victim incurring a detriment. The benefit or detriment could be either tangible or intangible. For example, if a person impersonates a doctor to gain entrance to a restricted area of a hospital, the benefit to the offender (entry to the restricted area) is intangible. Intangibles are anything which cannot be perceived by the sense of touch. They can be benefits, e.g., a right or privilege, a promotion, enhanced reputation, etc.; or a detriment, e.g., loss of reputation, injured feelings, etc.

The most specific subcategory of fraud should be reported whenever the circumstances fit the definition of more than one of the subcategories listed below. For example, most frauds would fit the definition of False Pretenses/Swindle/Confidence Game. But, if a credit card was used to perpetrate the fraud, the offense would be classified as Credit Card/Automatic Teller Machine Fraud.

The only fraud-related violations that would not be reported under the Fraud Offenses category are counterfeiting, forgery, and bad checks. These offenses are reported under their own specific offense classifications.

When classifying fraud cases other than the most obvious ones, i.e., con games, swindles, etc., care should be used in applying the facts of the case to the definition of fraud. Often questions arise as to whether or not the facts of a case describe a fraud or a larceny. Whereas both offenses can involve theft, it is the method used to steal that makes the difference between the two. Fraud is achieved through deceit or lying, whereas larceny is the physical taking of something.

Examples of common fraud cases are where something of value, e.g., a VCR or automobile, is rented for a period of time but is not returned. This offense, conversion of goods lawfully possessed by bailees, is classified as fraud and not larceny. In such cases, the offenders originally had lawful possession of the property (the property was either rented, loaned, or the person was in some way entrusted with its possession) and through deceit (they promised to return it) kept the property.

A common classification problem is the taking of gasoline without paying

for it. If an offender takes gasoline from a self-service gas station without paying for it, the offense is classified as larceny. In this case, no contract was entered into nor agreement made for payment. This would be the same as taking a can of oil off of the station's rack. However, if a station attendant is asked to fill the tank, there is a tacit agreement that he will be paid for the gas, and the offender, never having the intention to pay for it in the first place, utilized deception and stole the gas. This, then, is classified as a fraud.

A. False Pretenses/Swindle/Confidence Game

>   Definition - The intentional misrepresentation of existing fact or condition, or the use of some other deceptive scheme or device, to obtain money, goods, or other things of value.

B. Credit Card/Automatic Teller Machine Fraud

>   Definition - The unlawful use of a credit (or debit) card or automatic teller machine for fraudulent purposes.

This offense does not apply to the theft of a credit/debit card but rather its fraudulent use.

C. Impersonation

>   Definition - Falsely representing one's identity or position, and acting in the character or position thus unlawfully assumed, to deceive others and thereby gain a profit or advantage, enjoy some right or privilege, or subject another person or entity to an expense, charge, or liability which would not have otherwise been incurred.

D. Welfare Fraud

>   Definition - The use of deceitful statements, practices, or devices to unlawfully obtain welfare benefits.

E. Wire Fraud

>   Definition - The use of an electric or electronic communications facility to intentionally transmit a false and/or deceptive message in furtherance of a fraudulent activity.

This classification applies to those cases where telephone, teletype, micro-relay facilities, etc., are used in the commission or furtherance of a fraud.

11. Gambling Offenses

>   Definition - To unlawfully bet or wager money or something else of value; assist, promote, or operate a game of chance form money or some other stake; possess or transmit wagering information; manufacture, sell, purchase, possess, or transport gambling equipment, devices, or goods; or tamper with the outcome of a sporting event or contest to gain a gambling advantage.

A. Betting/Wagering

> Definition - To unlawfully stake money or something else of value on the happening of an uncertain event or on the ascertainment of a fact in dispute.

B. Operating/Promoting/Assisting Gambling

> Definition - To unlawfully operate, promote, or assist in the operation of a game of chance, lottery, or other gambling activity.

C. Gambling Equipment Violations

> Definition - To unlawfully manufacture, sell, buy, possess, or transport equipment, devices, and/or goods used for gambling purposes.

Such equipment is also known as gambling paraphernalia.

D. Sports Tampering

> Definition - To unlawfully alter, meddle in, or otherwise interfere with a sporting contest or event for the purpose of gaining a gambling advantage.

This offense includes engaging in bribery for gambling purposes. For example, if a jockey was bribed to lose a horse race, it would be reported as Sports Tampering, not Bribery.

NOTE: While explicit definitions are provided for most Group A crimes, some, such as Gambling Offenses, depend on the violation of locally established statutes.

12. Homicide Offenses

> Definition - The killing of one human being by another.

A. Murder and Nonnegligent Manslaughter

> Definition-The willful (nonnegligent) killing of one human being by another.

As a general rule, any death due to injuries received in a fight, argument, quarrel, assault, or commission of a crime is classified in this category. Although offenders may be charged with lesser offenses (e.g., negligent manslaughter), if the killing was willful or intentional it must be reported as murder or nonnegligent manslaughter. The findings of a court, coroner's inquest, etc., do not affect the reporting of offenses in this category; these are law enforcement statistics.

Suicides, accidental deaths, assaults to murder, traffic fatalities, and attempted murders are not classified as murder or negligent manslaughter. Situations where a victim dies of a heart attack as a result of a robbery or witnessing a crime likewise do not meet the criteria for inclusion in this classification. A heart attack cannot, in fact, be caused at will by an offender. Even in instances where an individual is known to have a weak heart, there is no assurance that an offender can cause

sufficient emotional or physical stress to guarantee the victim will suffer a fatal heart attack. Suicides, traffic fatalities, and fetal deaths are totally excluded from the UCR Program, while some accidental deaths are counted as negligent manslaughter. Assaults to murder and attempted murders are classified as aggravated assaults.

B. Negligent Manslaughter

Definition - The killing of another person through negligence.

Included in this offense are killings resulting from hunting accidents, gun cleaning, children playing with guns, etc. Not included are deaths of persons due to their own negligence; accidental deaths not resulting from gross negligence; and accidental traffic fatalities. Again, the subsequent findings of a court, coroner's inquest, etc., do not affect the reporting of offenses in this category; these are law enforcement statistics.

C. Justifiable Homicide

Definition - The killing of a perpetrator of a serious criminal offense by a peace officer in the line of duty; or the killing, during the commission of a serious criminal offense, of the perpetrator by a private individual.

Justifiable homicide is not an actual offense and is not included in an agency's crime counts. A "serious criminal offense" is a felony or high misdemeanor. Do not count a killing as justifiable or excusable solely on the basis of self-defense or the action of a coroner, prosecutor, grand jury, or court. The willful killing of one individual by another is being reported, not the criminal liability of the person or persons involved. For UCR purposes, crime determinations and counts are based on law enforcement investigations.

In the original or summary UCR system, justifiable homicides were reported as murders and then unfounded. In NIBRS, since the offenses are recorded as justifiable homicides initially, they should not be unfounded. They will be tallied separately and maintained apart from the murder counts.

Justifiable homicide, by definition, often occurs in conjunction with other offenses. The crime that was being committed when the justifiable homicide took place must be reported as a separate incident. These guidelines are based on the definition of an incident which requires that all of the offenders "act in concert." It cannot be said that the criminal killed justifiably acted in concert with the police officer or civilian who killed him; nor that the police officer or civilian who killed the criminal acted in concert with the criminal in committing the offense that gave rise to the justifiable homicide. Therefore, justifiable homicide cases involve two criminal incidents rather than one.

If the "justified" killer (officer or civilian) committed another offense in connection with the justifiable homicide (e.g., illegal possession of the gun he/she used) that offense would constitute a third incident.

13. Kidnapping/Abduction

Definition - The unlawful seizure, transportation, and/or detention of a person against his/her will, or of a minor without the consent

of his/her custodial parent(s) or legal guardian.

This offense includes not only kidnapping and abduction, but hostage situations as well. Although the object of a kidnapping may be to obtain money or property, this category is intended to capture information only on the persons actually kidnapped or abducted, not those persons or organizations paying ransoms. Therefore, for each kidnapping incident, report as victims only those persons taken or detained against their will.

14. Larceny/Theft Offenses

> Definition - The unlawful taking, carrying, leading, or riding away of property from the possession, or constructive possession, of another person.

Larceny and theft mean the same thing in UCR. Motor vehicle theft is not included and is counted separately because of the great volume of such thefts. Local offense classifications such as grand theft, petty larceny, felony larceny, or misdemeanor larceny have no bearing on the fact that each distinct operation of larceny is reported as one offense for UCR purposes. Also, all larceny offenses are reported regardless of the value of the property stolen.

Do not classify embezzlement; fraudulent conversion of entrusted property; conversion of goods lawfully possessed by bailees; counterfeiting; obtaining money by false pretenses; larceny by check, larceny by bailee; and check fraud as larceny offenses. Each of the aforementioned crimes falls within other offense categories.

A. Pocket-picking

> Definition - The theft of articles from another person's physical possession by stealth where the victim usually does not become immediately aware of the theft.

This type of theft includes removal of such items as wallets from women's purses and men's pockets and usually occurs in a crowd, public conveyance, or other similar situation to disguise the activity. Theft from a person in an unconscious state, including drunks, should also be classified as pocket-picking. However, if the victim is manhandled or force beyond simple jostling is used to overcome the resistance of the victim, the offense becomes strong-arm robbery.

B. Purse-snatching

> Definition - The grabbing or snatching of a purse, handbag, etc., from the physical possession of another person.

If more force is used than is actually necessary to snatch the purse from the grasp of the person, or if the victim resists the theft in any way, then robbery has occurred. Also, cases in which a purse or some other item of value is left unattended and is stolen should not be classified as a purse-snatching. This offense would be properly classified as a theft from a building, from a motor vehicle, or other appropriate larceny category.

C. Shoplifting

Definition - The theft, by someone other than an employee of the victim, of goods or merchandise exposed for sale.

This violation assumes that the offender had legal access to the premises, and thus, no trespass or unlawful entry was involved. This offense includes thefts of merchandise displayed as part of the stock in trade outside buildings, such as department stores, hardware stores, supermarkets, fruit stands, gas stations, etc.

D. Theft From Building

Definition - A theft from within a building which is either open to the general public or where the offender has legal access.

Do not include shoplifting and thefts from coin operated devices or machines within open buildings; these are other specific larceny types. Thefts from buildings include those from such places as churches, restaurants, schools, libraries, public buildings, and other public and professional offices during the hours when such facilities are open to the public. A theft from a structure, accompanied by a breaking or unlawful entry (trespass) without breaking, should be reported as burglary and not larceny.

E. Theft From Coin-Operated Machine or Device

Definition - A theft from a machine or device which is operated or activated by the use of coins.

Some examples of such machines are candy, cigarette, and food vending machines; telephone coinboxes; parking meters; pinball machines; or washers and dryers located in laundromats where no breaking or illegal entry of the building is involved.

If a building was broken into or illegally entered and a coin-operated machine in the building was rifled for money and/or merchandise, the matter would be classified as burglary.

F. Theft From Motor Vehicle

Definition - The theft of articles from a motor vehicle, whether locked or unlocked.

This type of larceny includes thefts from automobiles, trucks, truck trailers, buses, motorcycles, motor homes, or other recreational vehicles. It also includes thefts from any area in the automobile or other vehicle, e.g., the trunk, glove compartment, or other enclosure. Some of the items stolen in this type of theft are cameras, suitcases, wearing apparel, packages, etc., which are not an integral part of the vehicle. Do not include items that are automobile accessories, as they fall under theft of motor vehicle parts or accessories.

Certain state statutes might interpret thefts from motor vehicles as burglaries. For UCR purposes, these thefts must be classified as larcenies. If a theft from a motor vehicle occurs in conjunction with a motor vehicle theft, the incident will most often be reported as a motor vehicle theft with the stolen property recorded within the appropriate

property-type categories. If, however, the reporting jurisdiction determines that the real object of the theft was the contents, rather than the vehicle, two offenses can be reported, the vehicle theft and the theft from the vehicle. For example, if an automobile with a coat in the back seat is stolen, the offense would be reported as motor vehicle theft and the coat accounted for as property stolen in connection with the automobile theft. The theft of a tractor-trailer (truck) containing a shipment of televisions can, however, be reported as two offenses if in the judgment of the reporting agency the real object of the theft was the televisions, e.g., the truck is found abandoned and empty not far from the scene of the theft.

In larceny situations where both motor vehicle parts and accessories and articles from the motor vehicle are stolen, report the offense resulting in the greatest value of property loss. Report all of the property stolen.

G. Theft of Motor Vehicle Parts or Accessories

> Definition - The theft of any part or accessory attached to the interior or exterior of a motor vehicle in a manner which would make the item an attachment of the vehicle or necessary for its operation.

Thefts of motors, transmissions, radios, heaters, hubcaps and wheel covers, manufacturers' emblems, license plates, radio antennas, side-view mirrors, gasoline, tape decks, CB radios, radar detectors, etc., are included in this larceny type. If items being transported in the vehicle are stolen, the offense should be classified as theft from a motor vehicle.

H. All Other Larceny

> Definition - All thefts which do not fit any of the definitions of the specific subcategories of larceny/theft listed above.

This offense includes thefts from fenced enclosures. Thefts of bicycles, boats, bulldozers, airplanes, animals, lawn mowers, lawn furniture, hand tools, and farmland construction equipment are also included where no breaking or entering of a structure is involved.

Additionally, the illegal entry of a tent, tent trailer, or travel trailer used for recreational purposes, followed by a theft or attempted theft, should be counted as "all other larceny." Yet another example is the taking of gasoline from a self-service gas station and leaving without paying.

15. Motor Vehicle Theft

> Definition - The theft of a motor vehicle.

A motor vehicle is defined for UCR purposes as a self-propelled vehicle that runs on land surface and not on rails and which fits one of the following property descriptions:

Automobiles - sedans, coupes, station wagons, convertibles, taxicabs, or other similar motor vehicles which serve the primary purpose of transporting people.

Buses - motor vehicles which are specifically designed (but not necessarily

used) to transport groups of people on a commercial basis.

Recreational Vehicles - motor vehicles which are specifically designed (but not necessarily used) to transport people and also provide them temporary lodging for recreational purposes.

Trucks - motor vehicles which are specifically designed (but not necessarily used) to transport cargo on a commercial basis.

Other Motor Vehicles - any other motor vehicles, e.g., motorcycles, motor scooters, trail bikes, mopeds, snowmobiles, golf carts, whose primary purpose is to transport people.

Classify all cases where automobiles are taken by persons not having lawful access as motor vehicle theft even if the vehicles are later abandoned. Include joyriding.

Do not include the taking of a vehicle for temporary use when prior authority has been granted or can be assumed, such as in family situations; or unauthorized use by chauffeurs and others having lawful access to the vehicle. Other Group A offenses may, however, have occurred in these situations. For example, if a chauffeur steals a car entrusted to his care, an embezzlement should be reported.

16. Pornography/Obscene Material

    Definition - The violation of laws or ordinances prohibiting the manufacture, publishing, sale, purchase, or possession of sexually explicit material, e.g., literature, photographs, etc.

17. Prostitution Offenses

    Definition- To unlawfully engage in or promote sexual activities for profit.

A. Prostitution

    Definition - To unlawfully engage in sexual relations for profit.

This offense includes prostitution by both males and females.

B. Assisting or Promoting Prostitution

    Definition - To solicit customers or transport persons for prostitution purposes; to own, manage, or operate a dwelling or other establishment for the purpose of providing a place where prostitution is performed; or to otherwise assist or promote prostitution.

18. Robbery

Definition - The taking, or attempting to take, anything of value under confrontational circumstances from the control, custody, or care of another person by force or threat of force or violence and/or by putting the victim in fear of immediate harm.

Robbery involves the offender taking or attempting to take something of

value from a victim, aggravated by the element of force or threat of force. The victim, who usually is the owner or person having custody of the property, is directly confronted by the perpetrator and is threatened with force or is put in fear that force will be used. If there is no direct confrontation and the victim is not in fear of immediate harm, an extortion should be reported. In pocket-pickings or purse-snatchings, direct confrontation does occur, but force or threat of force is absent. However, if during a purse-snatching or other such crime, force or threat of force is used to overcome the active resistance of the victim, the offense is to be classified as robbery.

Cases involving pretended weapons or where the weapon is not seen by the victim but the robber claims to possess one are also classified as Robbery and the alleged weapon reported. If an immediate "on-view" arrest proves that there was no weapon, the offense is classified as Robbery, but the weapon is reported as "None."

Because some type of assault is an element of the crime of robbery, an assault should not be reported as a separate crime as long as it was performed in furtherance of the robbery. However, if the injury results in death, a homicide offense must also be reported.

In any instance of robbery, report one offense for each distinct operation. As in the case of other crimes against property, only one offense is reported regardless of the number of victims involved. The victims of a robbery include not only those persons and other entities (businesses, financial institutions, etc.) from whom property was taken, but also those persons toward whom the robber(s) directed force or threat of force in perpetrating the offense. Therefore, although the primary victim in a bank robbery would be the bank, the teller toward whom the robber pointed a gun and made a demand should also be reported as a victim, as well as any other person upon whom an assault was committed during the course of the robbery.

19. Sex Offenses

    Definition - Any sexual act directed against another person, against that person's will or where the victim is incapable of giving consent.

A. Rape

    Definition - The carnal knowledge of a person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her temporary or permanent mental or physical incapacity (or because of his/her youth).

This offense includes the rape of both males and females. In cases where several offenders rape one person, report one rape. Do not count the number of offenders. If force was used or threatened, the crime should be classified as rape regardless of the age of the victim. If no force or threat of force was used and the victim was under the statutory age of consent, the crime should be classified as statutory rape. The ability of the victim to give consent must be a professional determination by the law enforcement agency. The age of the victim, of course, plays a critical role in this determination. Individuals do not

mature mentally at the same rate. Certainly, no 4-year-old is capable of consenting, whereas victims aged 10 or 12 may need to be assessed within the specific circumstances.

B. Sodomy

> Definition - Oral or anal sexual intercourse with another person, without the consent of the victim, including instances where victim is incapable of giving consent because of his/her youth or because of his/her temporary or permanent mental or physical incapacity.

If a victim is both raped and sodomized in one incident, then both offenses should be reported.

C. Sexual Assault With an Object

> Definition - To use an object or instrument to unlawfully penetrate, however slightly, the genital or anal opening of the body of another person, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her youth or because of his/her temporary or permanent mental or physical incapacity.

An object or instrument is anything used by the offender other than the offender's genitalia. Examples are a finger, bottle, handgun, stick, etc.

D. Fondling (Indecent Liberties/Child Molesting)

> Definition - The touching of the private body parts of another person for the purpose of sexual gratification, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her youth or because of his/her temporary or permanent mental incapacity.

Fondling includes indecent liberties and child molesting. Because fondling is an element of rape, sodomy, and sexual assault with an object, it should be reported only if it is the sole sex offense committed against a victim.

20. Sex Offenses, Nonforcible

> Definition - Unlawful, nonforcible sexual intercourse.

A. Incest

> Definition - Non-forcible sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.

B. Statutory Rape

> Definition - Non-forcible sexual intercourse with a person who is under the statutory age of consent.

If the victim was incapable of giving consent because of his/her youth or mental impairment, either temporary or permanent, the offense should be classified as rape, not statutory rape.

21. Stolen Property Offenses

      Definition - Receiving, buying, selling, possessing, concealing, or
      transporting any property with the knowledge that it has been
      unlawfully taken, as by burglary, embezzlement, fraud, larceny,
      robbery, etc.

22. Weapon Law Violations

      Definition - The violation of laws or ordinances prohibiting the
      manufacture, sale, purchase, transportation, possession,
      concealment, or use of firearms, cutting instruments, explosives,
      incendiary devices, or other deadly weapons.

Include violations such as the manufacture, sale, or possession of deadly
weapons; carrying deadly weapons, concealed or openly; using,
manufacturing, etc., silencers; and furnishing deadly weapons to minors.

NIBRS Group B Offense Definitions -

Text:

There are 11 Group B offense categories and they encompass all of the crimes which are not Group A offenses, with the exception of most traffic offenses. Only arrestee data (or Group B Arrest Reports) are reported for Group B crimes.

1. Bad Checks

    Definition - Knowingly and intentionally writing and/or negotiating checks drawn against insufficient or nonexistent funds.

This offense includes fraudulent checks and insufficient funds checks but not counterfeited checks or forged checks.

2. Curfew/ Loitering/ Vagrancy Violations

    Definition - The violation of a court order, regulation, ordinance, or law requiring the withdrawal of persons from the streets or other specified areas; prohibiting persons from remaining in an area or place in an idle or aimless manner; or prohibiting persons from going from place to place without visible means of support.

Included in this offense are unlawful assembly, begging, and vagabondage. Persons arrested as being a suspicious character, suspicious person, etc., are also to be included.

3. Disorderly Conduct

    Definition - Any behavior that tends to disturb the public peace or decorum, scandalize the community, or shock the public sense of morality.

This offense includes affray, breach of the peace, blasphemy, profanity, obscene language, disturbing the peace, and public nuisance.

4. Driving Under the Influence

    Definition - Driving or operating a motor vehicle or common carrier while mentally or physically impaired as the result of consuming an alcoholic beverage or using a drug or narcotic.

This offense includes driving while intoxicated and operating a bus, train, streetcar, boat, etc., while under the influence.

5. Drunkenness

    Definition - To drink alcoholic beverages to the extent that one's mental faculties and physical coordination are substantially impaired.

Included are drunk and disorderly, common drunkard, habitual drunkard, and intoxication.

6. Family Offenses, Nonviolent

      Definition - Unlawful, nonviolent acts by a family member (or legal guardian) which threaten the physical, mental, or economic well-being or morals of another family member and which are not classifiable as other offenses, such as assault, incest, statutory rape, etc.

This offense includes: abandonment, desertion, neglect, nonsupport, nonviolent abuse, and nonviolent cruelty to other family members. It also includes the nonpayment of court-ordered alimony, as long as it is not considered to be contempt of court within the reporting jurisdiction.

NOTE: Do not include victims of these offenses who are taken into custody for their own protection.

7. Liquor Law Violations

      Definition - The violation of laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, or use of alcoholic beverages.

Driving under the influence and drunkenness violations are excluded. Included are violations of laws/ordinances prohibiting the maintenance of unlawful drinking places; bootlegging; operating a still; furnishing liquor to a minor; using a vehicle for the illegal transportation of liquor; etc.

8. Peeping Tom

      Definition - To secretly look through a window, doorway, keyhole, or other aperture for the purpose of voyeurism.

9. Runaway

      Definition - A person under 18 years of age who has left home without the permission of his/her parent(s) or legal guardian.

While running away does not constitute a criminal offense, each handling of a runaway should be reported. Include apprehensions for protective custody. Detentions (pickups) of runaways from one jurisdiction by another agency should be reported by the home jurisdiction.

10. Trespass of Real Property

      Definition - To unlawfully enter land, a dwelling, or other real property.

All burglary offenses include the element of trespass. Trespass, however, involves entry with no intent to commit a felony or theft.

11. All Other Offenses

      Definition - All crimes which are not Group A offenses and not included in one of the specifically named Group B crime categories listed above.

Offenses of general applicability (i.e., any offense prefixed by accessory before/after the fact, aiding and abetting, assault to commit, conspiracy to commit, facilitation of, solicitation to commit, threat to commit, or any other prefix identifying it as other than the substantive offense) are included in this category, if the substantive offense is within Group A. If Group B offenses are involved, classify as the substantive offense.

Generally, traffic offenses are excluded from this offense category. The vehicle-related offenses of hit and run (of a person) and vehicular manslaughter are, however, included; but driving under the influence is not as it is a separate Group B offense.
